Activate the auxiliary heat strip to let the system reach the set temperature on extreme weather days
ELECTRIC

Dual Fuel
Kepler Luxe Series Heat Pump+A-coil
Pair the Kepler Luxe Series with an existing furnace to let it determine the best source of heat (gas or electric) on cold days to guarantee peak efficiency and comfort of your HVAC system
ELECTRIC GAS

✔ **Ultra-quiet Performance**

Enjoying home comfort is most satisfying in a calm environment, both indoors and outdoors. Kepler units offer near-silent operation inside, while their outdoor units feature a side discharge design that ensures extremely quiet functioning, with noise levels as low as 58 dB(A) outside, letting you relish your outdoor area without disturbance.

✔ **Easy to Fit in Any Space**

Thinner design and lighter weight provides unmatched flexibility to fit in any unique home space
>> Fit more in your tech van or truck, with up to 4-5 Luxe Series units as opposed to 1-2 traditional units
>> Easy to bring to the installation site and install on pad; single fan unit can be transported by just a single worker

✔ **Easy to Service**

Streamlined Trouble Shooting
Easily accessible error code display

Easy Access
Remove test screen for access to the electrical board, blower, heater

Slide-Out Fan
Easily remove the fan motor for straightforward maintenance

Magnetic Filter Cover
One-click for filter access
